This is a statement on my behalf..

I Brian N Porras giving this statement on my behalf.. in the hopes I may get my agent card back and start working again..

This is about the Incident with and unpacking of cannabis product in a non packaging facility and taking cannabis.

I was asked by my supervisor Reichen Gihbsson if I would like overtime repackaging cannabis in smaller bags. I asked of that was ok and he told me that he talked to Bryan Pageant the owner and got the ok from him and it was ok by the state. I needed the job and did it in fear of losing my job..

So the next day I went to the dispensary to do what I was asked.. Nomie Derval the GM of the stores was there.. so I asked her if this was all ok.. because we were not in a clean room.. nomie looks straight at me and said.. " if you don't want to do the job you volunteered to do for overtime then I guess you don't want this job." So I said ok. When back to the room, did what I was told to do.. then at the end of the night before Nomie Derval left she looked in the room told everyone to take a bag of cannabis for helping out..

Again I was doing what i was asked in the fear of losing my job.. and still for trying to still do the right thing I lose my job now..
