6.21.21

On behalf of the members of the Chamber of Cannabis we would like to express our sincere gratitude to the Cannabis Compliance Board for being accessible and communicative during the legislative process. We appreciate the clarity you were able to provide on various topics throughout the session and your willingness to field questions from our organization pertaining to various matters.

We respect the CCB's willingness to take on the new cannabis lounge regulations and licensing and move cannabis commerce forward more inclusively. We understand that the process will take time and include a number of workshops and likely committee work. The Chamber and its members stand ready to participate and hope to have a role in most of the discussion pertaining to cannabis lounges.

Thank you for your commitment to social equity, diversity, and expanding ownership opportunities in the industry. We are grateful that the Board and staff of the CCB have done such an excellent job in their first year and we congratulate you on including more voices to participate in your deliberations, including through the Cannabis Advisory Commission.

Cristina Ulman
President, Chamber of Cannabis

Subject: Closing questions

Dear State of Nevada, Cannabis Compliance Board,
When will licensing's be open for the State of Nevada, in 2021 for labs? Will there be notifications that go out in a timely manner?

Thanks,
Brooke
