

Proposed Changes to NCCR Regulation 11

New

11.015 Requirements for testing facility to handle, test or analyze cannabis.

2. *A cannabis independent testing laboratory shall implement business practices which are structured and managed so as to safeguard impartiality in testing including:*

(a) A testing laboratory may not offer a different fee schedule or waive payment in the event of failing or otherwise undesirable test results; and

(b) Refunds, rebates or any other return of payment in the form of alternate compensation is not permitted for the reason of failing or otherwise undesirable test results.

3. A cannabis independent testing laboratory is not required to use a cannabis distributor to collect or move samples for testing.
