Good afternoon I'd like to hear the CCB's plans to address the following:

Does the petition allow for the sale of cannabis and alcohol at these large events, since cannabis consumption lounge license prohibits the sale of both products

Thanks
Ed

Does the petition provide for the same single serving requirements as set forth with the lounges.

Tell me how this isn't a workaround for those that didn't choose to apply for a lounge license?

Will the event be subject to the same level of compliance as lounges, it seems unlikely that these events will be able to meet the criteria as provided in the lounge licenses.

If these event promoters are allowed to sell both alcohol and cannabis the same allowance needs to be given to those of us who spent the \$100,000 for a lounge application. I believe far more would have applied for these licenses if both revenue streams were available.

Thanks
Ed

If illegal drugs are finding their way into events now, how is it that no products are going to find their way out of the consumption into the event?

What is the chain of custody to and from the facility?

If lounges are not allowed to have consumption visible to the public, how is it at all equitable that all the lounge regulations are not applicable in these events?

25,000 people are only applicable in Southern Nevada. Northern Nevada has 2 venues that even have the capacity to host 25,000 if the goal is to boost the industry ANY SIZE event should be allowed to apply. Why would a cannabis specific event that has 2000-3000 attendees not be allowed but a state fair with family oriented focus is allowed?

Thanks
Ed
