PACKAGING AND LABELING OF CANNABIS

New

~~Deleted~~

12.010 Requirements for single packages.

1. Unless preparing bulk packages only for delivery to another cannabis establishment and not for sale to a consumer, a cannabis establishment that packages cannabis or cannabis products must individually package, label and seal the cannabis or cannabis products in a single package for sale. A cannabis sales facility shall only sell cannabis or cannabis products in a single package which must not contain:

Is 1a relating to cultivation to cultivation?

- (a) More than 1 ounce (28.35 grams) of usable cannabis.
- (b) For a cannabis product sold as a pill or capsule, more than 100 milligrams of THC per pill or capsule or more than 800 milligrams of THC per package.
- (c) For a cannabis product sold as a tincture, more than 800 milligrams of THC.
- (d) For a cannabis product sold as an edible cannabis product, more than 100 milligrams of THC.
- (e) For a cannabis product sold as a topical product, a concentration of more than 6 percent THC or more than 800 milligrams of THC per package.
- (f) For a cannabis product sold as a suppository or transdermal patch, more than 100 milligrams of THC per suppository or transdermal patch or more than 800 milligrams of THC per package.
- (g) For any other cannabis product, more than 800 milligrams of THC.

Need clarification on 1a-g

~~2. An edible cannabis product must be packaged in a manner which indicates the number of servings of THC in the product, measured in servings of a maximum of 10 milligrams of THC per serving, and include a statement that the edible cannabis product contains cannabis and its potency was tested with an allowable variance of plus or minus 15 percent of the allowable limit.~~

~~3.2.~~ For cannabis or cannabis products that are intended to be sold to a consumer, the text used on all labeling must be printed in at least 8-point font and may not be in italics.

12.015 Requirements for packaging cannabis, cannabis products and edible cannabis products, ~~products in solid or liquid form, usable cannabis and concentrated cannabis or cannabis products:~~

1. Any edible product containing cannabis must:

(a) Be clearly and unambiguously packaged as cannabis with the words ~~“THIS IS A CANNABIS PRODUCT”~~ “THIS PRODUCT CONTAINS CANNABIS” and includes the warning “KEEP OUT OF REACH OF CHILDREN” in bold type that clearly identifies that the product contains cannabis;

(b) Be packaged in a manner which is not modeled after a brand of products primarily consumed by or marketed to children;

(c) Be presented in packaging which does not contain an image of a cartoon character, mascot, action figure, balloon or toy, except that such an item may appear in the logo of the cannabis production facility which produced the product;

(d) Not be packaged or marketed as candy;

(e) Include a Nevada universal cannabis symbol approved by the Board to indicate that the product contains cannabis;

(f) The net weight of the product;

(g) A list of all ingredients and all major food allergens as identified in 21 U.S.C. § ~~343~~ 321(qq);

and

(h) A notice that the actual amount of THC may be within 15 percent of the stated amount for the edible cannabis product;

(i) For edible cannabis products, a warning that states: “Caution: When eaten or swallowed, the intoxicating effects of this product may be delayed by 2 or more hours”;

(j) be packaged in a manner which indicates the number of servings of THC in the product, measured in servings of a maximum of 10 milligrams of THC per serving.

(k) When sold at a cannabis sales facility, be placed into a package or directly packaged in opaque, child-resistant packaging in accordance with 16 C.F.R. Part 1700 and the standards specified in subsection 3 or 4. The child-resistant packaging must maintain its effectiveness for multiple openings before leaving the cannabis sales facility with the consumer.

(l) Protect the contents from contamination and must be of a food grade material.

~~2. When sold at a cannabis sales facility, any cannabis or cannabis product must be packaged in opaque, child-resistant packaging in accordance with 16 C.F.R. Part 1700 and the standards specified in subsection 3 or 4. The child-resistant packaging must maintain its effectiveness for multiple openings before leaving the cannabis sales facility with the consumer.~~

~~3. Except as otherwise provided in subsection 4, cannabis products in solid or liquid form must be packaged in: (a) Plastic which is 4 mils or more in thickness; or (b) If the product is in liquid form, a food-grade container.~~

~~4.2. Edible Cannabis products in liquid form containing more than 10 milligrams THC must be packaged using a resealable cap in a container that:~~

~~(a) Clearly demarks each serving of cannabis in a way that enables a reasonable person to intuitively determine how much of the product constitutes a single serving of THC; or~~

~~(b) Includes a device that allows a reasonable person to intuitively measure and serve a single serving of THC.~~

~~→ The portion of such a container that demarks each serving of cannabis need not be opaque.~~

Is 1e relating to flower as well? When will the symbol be released?

I looked at CFR, has the CCB does the child and senior test. What is defined as multiple openings before leaving sales facility?

Does 1k mean that you can use paper bags? Are plastic bags/ brown paper bags that are non-sealable non-compliant?

~~5. Any container or packaging containing usable cannabis, concentrated cannabis or cannabis products must protect the contents from contamination and must be of a food grade material.~~

~~6. An edible cannabis product must be sealed in a container which is not transparent and sold in packaging which is opaque.~~

~~7.3.~~ Each single serving in a multiple-serving edible cannabis product must be physically demarked in a way that enables a reasonable person to intuitively determine how much of the edible cannabis product constitutes a single serving. Each demarked serving must be easily separable in a manner that allows an average person who is 21 years of age or over to physically separate, with minimal effort, an individual serving of the edible cannabis product.

~~8.4.~~ If an edible cannabis product is of a kind that is impracticable to clearly demark each serving of cannabis with the dose in milligrams of THC, the edible cannabis product must:

(a) Contain not more than 10 milligrams of THC per unit of sale; or

(b) Be sold in a package that contains more than one individually wrapped single-serving edible cannabis product

5. Packaging for cannabis or other cannabis products must:

(a) Be clearly and unambiguously packaged as cannabis with the words “THIS PRODUCT CONTAINS CANNABIS” and includes the warning “KEEP OUT OF REACH OF CHILDREN” in bold type that clearly identifies that the product contains cannabis;

(b) Be packaged in a manner which is not modeled after a brand of products primarily consumed by or marketed to children;

(c) Be presented in packaging which does not contain an image of a cartoon character, mascot, action figure, balloon or toy, except that such an item may appear in the logo of the cannabis production facility which produced the product;

(d) Not be packaged or marketed as candy;

(e) When sold at a cannabis sales facility, be placed into a package or directly packaged in opaque, child-resistant packaging in accordance with 16 C.F.R. Part 1700 and the standards specified in subsection 3 or 4. The child-resistant packaging must maintain its effectiveness for multiple openings before leaving the cannabis sales facility with the consumer.

(f) Protect the contents from contamination and must be of a food grade material.

12.030 Cannabis cultivation facility: Required labeling before sale of cannabis to another cannabis establishment.

1. A cannabis cultivation facility shall label all cannabis before it sells the cannabis to another cannabis establishment and shall securely affix to or include with the package, or supply through an electronic medium approved by the appropriate board agent, if not already on or affixed to the container or package, a label that includes, without limitation, in legible English:

- (a) The name of the cannabis establishment and the establishment ID ~~its license number or~~ of the cannabis cultivation facility. establishment ID;
- ~~(b) If the cannabis establishment is operated by a dual licensee, the number of the medical cannabis establishment license of the cannabis cultivation facility operated by the dual licensee;~~

Can this be posted in lobby/entry?

12.070 Advertising of cannabis (Subsection 3 of this section becomes effective May 1, 2022). A cannabis establishment shall ensure that all advertising by the cannabis establishment contains such warnings as may be prescribed by the Board, which must include, without limitation, the following words:

1. “Keep out of reach of children”;

2. “For use only by adults 21 years of age and older”;

3. Shall ensure that all advertising by the cannabis establishment contains:

(a) The name of the cannabis establishment; and

(b) The adult-use cannabis establishment Identification number assigned to the cannabis establishment by the Board.

(i) If a cannabis establishment holds more than one license, the cannabis establishment must include any one of the adult-use cannabis establishment identification number or medical cannabis establishment identification number in all the cannabis establishment’s advertisements.

is only ONE license required?

(4) Such warnings and information required in sections 1 through 3 must be visible and legible

(5) Advertisements such as branded displays or images which are posted inside a licensed cannabis establishment, and not for distribution, are not subject to the restrictions outlined in sections 1 through 3.

~~If a cannabis establishment holds more than one license, the cannabis establishment must include any one of the adult-use cannabis establishment identification number or medical cannabis establishment identification number in all the cannabis establishment’s advertisements.~~

4-(6) A cannabis establishment shall not engage in advertising that in any way makes cannabis or cannabis products appeal to children, including without limitation, advertising which uses an image of a cartoon character, mascot, action figure, balloon, fruit or toy. The cannabis establishment shall ensure that the advertisement is not modeled after a brand of products primarily consumed by or marketed to children.

(a) Advertisements such as branded displays or images which are posted inside a licensed cannabis establishment are not subject to the restriction on use of fruit.

Final Questions

- When Inspectors come out, some say that product display of live product needs to have a metric tag attached to it, I'd like to ensure that is the case? Other inspectors have been saying that live products state that the metric tag can be on the bottom of the case, meaning it is not directly attached to the product.

Which is accurate?

- In regards to labels. if logo includes business name, address, and id number that is required, can we omit that from label or does it have to be in both spots?

Hello CCB,

I spent some time revising a document I recently submitted titled [Exhibit A and B](#). If it may be possible, I'd like to replace them for the public comment record of the workshop, as I prefer this current model, [Exhibit C and D](#).

This updated list provides a further refined example of safe adult use cannabis for the Nevada market, reducing laboratory cost should also have a reflection on price reduction in the market.

REVISED 10/13/23

For the record, Dan Steele. Time of drafting this document is 8:30 AM, 10/13/2023

The following documents can help Nevada's industry by creating a separation between cannabis intended for Adult-use vs medical patients. A separation may not be necessary, but this updated adult-use microbial testing can greatly reduce costs and waste in a laboratory.

Extensive PCR testing shouldnt be necessary for adult-use cannabis. As they are certainly not an immunocompromised group.

Labels could say "This cannabis product is intended for Adult-use"

Adult-use tests would cover safety for medical patients as well. I dont assume there are any immunocompromised individuals who are licensed patients in Nevada, nor should a health care provider recommend cannabis to someone in an at risk group. But separation by microbial testing is an option.

Regards

Dan

I'd like to add onto my previous comment, titled Exhibit C and D. Just the following line
Any mention of immunocompromised may be considered "severely-immunocompromised"

I'd like to showcase the microbial testing model recently developed by Oregon. **This model came from honest and upfront communication** with all parties represented under Oregon's cannabis regulatory framework and body.

It should be noted that, when cannabis is turned down for microbial testing it can end up on the black market. Because many facilities already have a storage room full of material destined for remediation.

Historically (dating back to before Christ), cannabis farmers inspect crops for visible molds during the growing and trimming process.
