Public Health and Safety Bulletin 2025-02 Amended

The Nevada Cannabis Compliance Board (CCB) issues this Public Health and Safety Bulletin 2025-02 on December 12th, 2025, advising consumers and patients to avoid or take caution if consuming the cannabis that is the subject of this notice. This Bulletin was amended on December 19, 2025 to remove 8 packages that were determined to be unaffected and are permitted to be sold upon further review over the course of the investigation.

CCB agents discovered that the following cannabis and cannabis products had been treated with an unapproved pesticide, Eagle 20, that was not applied in accordance with its label, at Greenway Medical, LLC (License #45452459135682728564):

Usable cannabis harvested by Greenway Medical, LLC (C018) between August 2025 – November 2025, was affected. Affected products may include **cannabis flower, shake/trim and uninfused pre-rolls, infused edibles, infused flower, infused pre-rolls, or cannabis concentrates.**

Please refer to the product list below. Please note that the item name may not specify the name of the product brand, so consumers must verify the lot number or production run number as it appears on the product label. All cannabis products properly sold by a licensed cannabis sales facility should have a product label on or provided with the packaging. The lot number or production run number can be found on the label, typically near the top.

<u>Item</u>	<u>Batch/Lot(s)</u>
14g (1/2oz) - Cheetah Piss	1A4040300000206000031415

The CCB is advising consumers to avoid consumption of said products.

There is no reason to believe the cannabis sales, production or cannabis testing facilities had any knowledge of the use of this unapproved pesticide.

The affected cannabis packages were sold at the following cannabis sales facilities between September 2025 – December 2025.
