Amended Public Health and Safety Bulletin 2026-01

The Nevada Cannabis Compliance Board (CCB) issues this Public Health and Safety Bulletin 2026-01A on October 29th, 2026, advising consumers and patients to avoid or take caution if consuming the cannabis that is the subject of this notice.

The following cannabis packages (uninfused pre-rolls and whole flower) successfully passed initial laboratory testing. However, CCB agents subsequently determined that the cannabis was altered after the laboratory sampling process. As a result of subsequent testing, one lot failed for microbial contamination, specifically Enterobacteriaceae and Total Coliforms.

The CCB advises consumers to avoid consuming the following lot number.

<u>Item</u>	<u>Batch/Lot(s)</u>
Orange Juice Mac 3.5g	F1H8OJM 1A4040300007081000009370

The following lots are listed as a precaution due to the fact that they were unable to undergo secondary testing and may have failed for microbials.
