Public Health and Safety Bulletin 2026-01

The Nevada Cannabis Compliance Board (CCB) issues this Public Health and Safety Bulletin 2026-01 on October 28th, 2026, advising consumers and patients to avoid or take caution if consuming the cannabis that is the subject of this notice.

The following cannabis packages (uninfused pre-rolls and whole flower) successfully passed initial laboratory testing. However, CCB agents subsequently determined that the cannabis was altered after the laboratory sampling process. As a result of subsequent testing, one lot failed for microbial contamination, specifically Enterobacteriaceae and Total Coliforms.

The CCB advises consumers to avoid consuming the following lot number.

<u>Item</u>	<u>Batch/Lot(s)</u>
Orange Juice Mac 3.5g	F1H8OJM 1A4040300007081000009370

Because not all lots were available for subsequent testing it cannot be confirmed whether contaminants may be present in the following cannabis lots; however, out of an abundance of caution the CCB is providing this Public Health and Safety Bulletin.

The following lots are listed as a precaution due to the fact that they were unable to undergo secondary testing and it is unknown whether contaminants may be present.

<u>Item</u>	<u>Batch/Lot(s)</u>
